

## 5 Setting the Sight

## 6 The 6 Position Stock

## 7 Maintenance and Removing Clogged BB's

- Drop a few drops of silicone oil into BB entrance. Insert BB's into the magazine and fire equivalent of 1 or 2 magazines.
- To complete the clearing use the cleaning rod [with cotton] as shown below, to remove excess oil.

## Troubleshooting

	Faulty O-ring	Purchase the replacement parts from the dealer
Load, or Other	Operation doesn't correctly	Contact TeamSD Service Center

## WARNING

- This product is an airsoft gun. It is to be purchased by persons 18 years of age or older. Adult/parental supervision required when used by any persons under the age of eighteen.
- Be responsible, check with your local law enforcement on airsoft gun regulations.
- Please read the operation manual and fully understand the safe handling of your airsoft gun before use.
- Pay special attention to your surrounding area when using your airsoft gun. Do not carry your airsoft gun in public, in open view, or concealed. Transport your airsoft gun, unloaded, in locked gun carrier/case. Do not brandish, point, or shoot at other people, animal, or private properties. Such actions may be perceived by others (including law enforcement officers) as a threat and prompt to react, accordingly.
- U.S. Federal regulation requires the orange marking. Do not remove, alter or imitate marking. All warranty void if marking(s) are tampered with.
- Enjoy your airsoft gun in firearm safety/handling training, movie and theatrical production applications, and regulated airsoft sports at all participating playing fields and shooting ranges. Ask your airsoft dealer for details.
- Store your airsoft gun unloaded, remove batteries, discharge of any gas or spring tension, in a safe and locked location, out of the reach of children.
